Project Title: Sacramento River Erosion Control and Habitat Enhancement Project

Project Applicant: Brannan-Andrus Levee Maintenance District

Project Location (include county) Sacramento Co., left bank of Sacramento River, South of Isleton, CA

Project Description:

The Brannan-Andrus Levee Maintenance District (BALMD) is proposing the Sacramento River Erosion Control and Habitat Enhancement Project to resolve erosion issues on the left bank of the Sacramento River, on Brannan Island, at approximate River Miles (RM) 14.60 to 15.18, 16.36 to 17.00 and 17.13 to 17.34. Once completed, the project would: provide suitable levee erosion control on approximately 1.2 nautical miles (NM) of levee; provide fish-friendly habitat through the creation of wetland and riparian benches on the Sacramento River channel margin; and minimize long-term maintenance and repair costs by repairing existing areas of erosion using stable and effective erosion control methodologies.

This is to advise that the Brannan-Andrus Levee Maintenance District has approved the above (Lead Agency or Responsible Agency)

described project on Dec. 10-2020 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Brannan-Andrus Levee Maintenance District, 14315 River Rd., Walnut Grove, CA 95690.
